Department Rules and Regulations:

- A. Entries can only be made online via the Delaware State Fair's website beginning 9:00 AM April 1, 2019 thru 11:59 PM June 1, 2019.
- B. It is the responsibility of each exhibitor to read all General Animal Exhibitor Rules. These rules can be found on page 9 and on www.DelawareStateFair.com.
- C. Entries will be accepted as stall space permits. When stall space is full, entries will be put on a waiting list and accepted if space becomes available.
- D. Delaware entries have priority, but cattle from other states will be accepted as stall space permits. All on-line entries are date and time stamped. This will be used in the decision for non-Delaware entries; earliest date/time will prevail. Delaware entries will have priority and out-of-state cattle will be accepted thereafter as barn space permits.
- E. All animals must be registered with their respective breed associations. All registration papers will be checked for verification of age and identification by the Superintendent or his agent prior to show day starting at 10:00 AM Saturday.
- F. Exhibitors should keep in mind that animals may have to be moved to make room for other entries. First bedding will be supplied by the Fair.
- G. Exhibitors having leased animals shall have a bona-fide lease agreement. A Delaware Youth Dairy Leasing Agreement must be obtained from the 4-H office. The required information shall be entered on the lease form with proper signatures from both the Junior Exhibitor and their parents/guardians and the owner of the animal. This is the only leasing form that will be accepted. No other versions of the leasing agreement will be accepted. Lease agreements must be signed and submitted to the 4-H

office by May 1 of the current year. Submitted leases will be forwarded to the Delaware State Fair entry department.

- H. All exhibitors of dairy cows that need to be milked while on exhibit on the fairgrounds are required to use the Fair's milking parlor for that purpose. Exhibitors must notify the superintendent of any milking animals treated with antibiotics. There will be a severe penalty for anyone who knowingly puts antibiotic-containing milk in the milk tank, including loss of premiums and any other action the fair may deem necessary. Due to restrictions by some Dairy Cooperatives the Fair may not be paid for milk produced during Fair week.
- I. All animals used in group classes must be entered and shown in individual classes, but no exhibitor may collect more than 2 monies in any class. Family entries operating as single herd units in testing and similar programs may be considered as eligible exhibitors in group classes. All senior yearlings in milk shall show as 2 year olds and be eligible for senior group classes. Substitutions will be allowed within the same breed. No added entries will be allowed.
- J. The Grand Champion of each breed will return to compete for the Supreme Champion of the Open Dairy Show. Cows shall NOT be milked out. Both Judges will confer to select the Supreme Champion.
- K. The Junior Champion of each breed will return to compete for Supreme Champion Heifer of the Open Dairy Show. Both Judges will confer to select the Supreme Champion Heifer.
- L. Dairy exhibitors are expected to wear white pants and shirt or white pants with a colored shirt and safe shoes.
- M. There will NOT be a specific class for best udder. The judge will select the best udder in each milking class. That entry will receive a \$30 premium above their normal premium placing. If the judge feels that no animal is worthy of the best udder, then no award will be given.
- N. Show harnesses will be used during all Dairy Cattle Shows. The Delaware State Fair will supply the exhibitor number to be inserted into each harness. This number shall be worn whenever the animal is in the show ring. Showmen must have the appropriate exhibitor back tag number to be admitted into the showing to insure accurate record keeping for payment of premiums.

Junior Dairy Show Policies:

- A. The Showmanship Classes will start at 4:00 PM (or after the horse show is completed)
- B. We will have two show rings and two judges. One for Holsteins and one for Colored Breeds. Breed classes will start after Showmanship classes are completed. The Holstein Ring will start with Spring Calves and follow the order of the handbook. The Colored Breed Ring will start with Ayrshire Spring Calves and follow the order of the handbook. Colored Breeds will then show in alphabetical order, each breed starting with spring calves.
- C. The Junior Champion of each breed will compete for Supreme Champion Junior Female. The Grand Champion of each breed will compete for Supreme Champion. Milk out is optional. Both judges will confer to select the Supreme Champions.
- D. To be eligible to show an animal in the Junior Show the animal must be registered in the name of the exhibitor. Active Delaware 4-H and FFA members are permitted to exhibit in the junior show regardless of residency. The exhibitor(s) will also be eligible to enter in Open Classes.
- E. Animals must be registered in the name of the exhibitor 60 days prior to the Show as further proof of ownership by the person whose name entry is made. Exhibitors with leased animals must have a valid lease agreement in place as of May 1 and a copy of the lease will be submitted to the Fair from the 4-H office and will be verified by the Superintendent.
- F. Animals used in the fitting and showmanship classes must be owned or leased by the exhibitor. Exhibitors in the Junior Show may enter the same animals in the Open Show.

The animal shall have been entered in the futurity in the following manner:

The animal shall be registered or leased in the name of the exhibitor by May 1 of the current year. The final entry requires an exhibitor's name.

\$ 10.00 due January 31, 2019

\$ 20.00 due May 1, 2019

Policy Regarding Accommodations for Junior Exhibitors

The Delaware State Fair, Inc. junior exhibitor program should be accessible to the wide diversity of youth who live our region, regardless of their backgrounds and characteristics — including physical, mental or emotional abilities and/or limitations.

Ideally, junior exhibitors with disabilities should be able to participate in the activities with their peers and any necessary accommodations should be made to make that possible. Any accommodation for a junior exhibitor with a disability should:

1. Allow a junior exhibitor with a disability to participate in the same collective activity as all other junior exhibitors at the same age level. Observation of the activity without direct involvement does not constitute participation.
2. Be determined with a stated goal to minimize direct adverse impact on how other participants in the activity perform or are evaluated. Every effort should be made to minimize the effects of the accommodation on other participants.
3. Be assessed on a case-by-case basis. The assessment and determination of the level of accommodation(s) should include consultation with the junior exhibitor, the exhibitor's parents or guardian, activity leader such as a Youth Program Advisor or Field Specialist, and a Fair program representative. Consultation with vocational rehabilitation professionals or professionals who teach or provide services to the junior exhibitor with the disability is also a preferred level of interaction to determine appropriate and reasonable accommodations.
4. Be reasonable. Accommodations are considered reasonable if they do not change the fundamental nature of the program or alter the essential criteria for participation. If an accommodation does not alter the fundamental nature of the program, then it is reasonable and will be provided. Junior exhibitors with disabilities will be judged using the same criteria as other participants. The accommodation should allow them to participate in the activity and achieve the criteria while not counting against the final determination of success.
5. Be reasonable. Accommodations are considered reasonable if they do not change the fundamental nature of the program or alter the essential criteria for participation. If an accommodation does not alter the fundamental nature of the program, then it is reasonable and will be provided. Junior exhibitors with disabilities will be judged using the same criteria as other participants. The accommodation should allow them to participate in the activity and achieve the criteria while not counting against the final determination of success.

Examples of possible accommodations include modifying rules, policies or timing of events; eliminating architectural or physical barriers; providing interpreters; modifying equipment; providing additional spacing needs; providing verbal or modified testing; allowing the use of digital technology (e.g. letter boards, text-to-speech programs or appropriate applications); or other types of accommodations as deemed appropriate.

The Delaware State Fair, Inc. will strive to respect the privacy of the individual participant. Information regarding a junior exhibitor's request for accommodation is extremely confidential. Any information that is gathered in order to assist the junior exhibitor in order to accomplish the goal of full program participation with accommodation will be used for only that purpose.

General Policies for Delaware State Fair Exhibitors

Parking

In an effort to be more safety conscious and to improve the appearance of the grounds, vehicles will not be allowed to park inside the fairgrounds property of the Delaware State Fair. Those livestock exhibitors who need to make deliveries to their exhibit area will be required to do so prior to 12 Noon each day. After 12 Noon, all vehicles will be required to park in the exhibitor lot or in the main parking lot. Violators of the parking policy are subject to be towed. All exhibitors owned cars parking in the exhibitor parking lot must display an exhibitor parking hang tag. Due to limited capacity in this lot, parking with a hang tag is on a first come - first served basis. Livestock trailers will be parked in a designated area in the south parking lot. Cars and trucks shall not be parked around barns.

Premiums and Awards

Every effort will be made to see that there are no errors made in the payment of premiums. However, if an exhibitor finds an error, proof of such error must be communicated to the Delaware State Fair Administration Office on or before November 1, 2019. After this date, no corrections will be considered. Checks that are not cashed after 90 days of issue will NOT be reissued.

No person will be permitted to distribute advertising material upon the fairgrounds except from their place of business or exhibit space. The tacking or posting of an advertisement, bills, etc., other than within the space occupied by exhibits is strictly prohibited. IAFE (International Association of Fairs and Expositions) NATIONAL CODE OF SHOW RING ETHICS

1. Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.
2. All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.
3. The following is a list of guidelines for all exhibitors and all livestock in competitive events:
 - a. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
 - b. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
 - c. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
 - d. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

- e. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
- f. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- g. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- h. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- i. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- j. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- k. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
- l. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

- a. Fair Officials at the Delaware State Fair include the livestock committee chairperson, department superintendents, assistant superintendents, judges and competitive exhibition officials. Delaware State Fair

animal superintendents and other competitive exhibition officials are a very important part of the Fair. They receive no compensation for the services they provide to the exhibitors. The chairperson of the livestock committee has the overall responsibility for all animal departments. In the event of a disagreement, the matters and issues may be referred to the Fair's general manager for ultimate resolution.

- f. Animal superintendents, Fair officials, and all others who are governed by this code shall strictly comply with all of the provisions in this code of conduct.
- g. All superintendents and Fair officials (superintendents and assistant superintendents) involved in Competitive Exhibition will be required on an annual basis, to sign off on an acknowledgement form acknowledging their receipt and understanding of the Code of Conduct for Fair Officials, Superintendents' Job Description and The National Code of Show Ring Ethics (IAFE) Superintendents Job Description and the Policy Handbook and Code of Conduct.

- d. Each department superintendent should utilize assistants to help carry out the duties described herein. Names of new assistants must be submitted to the general manager for approval.

All names for consideration must come from the superintendents. This list must include accurate contact information including all available phone numbers. The administrative assistant shall select the Judge from the submitted list on the basis of availability and cost. If additional names are required, such a request will be directed to the superintendent who should respond in timely manner. If one of the recommended names of judges is unable to be confirmed, staff may revert to other recognized sources for recommendations. The superintendent may not participate in the selection process beyond submission of the names. In submitting names, the superintendent should be sensitive to the level of familiarity that the potential judge might have with the Fair's personnel, volunteers and exhibitors in terms of social interaction, prior judging and/or raising and sale of livestock.

- i. Livestock Department Superintendents will be exclusively responsible for assigning pens/stalls prior to the opening day of the fair. Fair staff (full and part-time) shall not participate or assist in assigning stalls or pens or making any interpretative decisions regarding entry entitlement. These decisions are to be made solely by the Superintendents with assistance as necessary coming from the Chairman of the Competitive Exhibits Committee. Preparations shall be made to post stall/pen assignments in a conspicuous place to avoid any confusion during exhibitor check-in. A central check-in point shall be established and maintained until all entries are received. All questions from exhibitors posed about decisions made in conjunction with the entry process and pen/stall assignments if received by staff (full or part-time) shall be referred directly to the Superintendents who will be responsible for dealing directly with the exhibitor and to appropriately apprise staff of his or her decision.
- j. Superintendents and assistant superintendents must be present during check-in. Superintendent or at least one assistant shall be available to address needs and concerns of exhibitors. All department superintendents and their assistants should plan together and divide responsibilities appropriately. A suggestion would be to create a chart showing who is to be present or available and responsible during the times an exhibit is open to the public, during check out time at the close of the Fair, and for the maintenance of good housekeeping procedures throughout.
- k. Superintendents shall be familiar with recommendations for managing public and animal contact areas and shall ensure compliance with established measures to reduce the potential for injuries or disease transmission and to increase the probability that incidents or problems identified with animal contact settings will be reported, documented, and handled appropriately.
- l. It is the responsibility of each Superintendent to meet with the accounting department each October to establish a monetary budget for their respective department.
- m. All superintendents and assistant superintendents shall be required to attend an annual pre-fair meeting during which that year's overall animal program is reviewed. This meeting shall be conducted by the chairman of the livestock committee. Depending upon each department's unique circumstances, attendance at additional meetings may be necessary.

3. During the Fair

- a. The Fair's credentials department shall issue all gate passes and parking permits to all animal department superintendents. Superintendents shall be responsible for the fair and equitable distribution of all gate passes and/or parking permits to all exhibitors. Superintendents must keep accurate records of all gate passes and parking permits as to whom they are distributed. Records shall be maintained as prescribed by staff. Pass and permit issuance records must be turned in at the end of the Fair to the credentials department.
- b. Each superintendent or his/her designee shall assist in the collection of accurate entry and judging information for the conduct of the junior livestock auction.
- c. Superintendents and fair officials involved in competitive exhibition are to interpret the Fair's rules, policies and regulations as they apply to their respective department. Superintendents should accept only those exhibits that meet the requirements set forth in the General and Departmental Animal Rules. Keep a copy of the Exhibitor's Handbook handy to answer questions. It is very important that superintendents be available to answer questions at the times noted in the Exhibitor's Handbook.
- d. Superintendents and fair officials, including volunteers, shall exercise best efforts to avoid any inappropriate contact with the show ring judge in order to avoid the appearance of any impropriety or conduct that may be interpreted by the public as lacking fairness and good sportsmanship.
- e. Post conspicuously persons who are on duty in your exhibit building. Superintendent or assistant superintendent on duty should always review the exhibit area for cleanliness, neatness and care of the animals.
- f. Receive the exhibits, checking to see that exhibitors have properly entered their exhibit according to procedures set forth in the General and Department Animal Rules. Work with clerks to be certain that exhibits are entered in the proper categories and that exhibitor tags or numbers are on all entries. Animal department superintendents should pay special attention that all exhibited animals have been properly

entered. Superintendents or designated assistant superintendent shall ensure that the registration and animal health papers of all animals have been checked and verified.

- g. Plan a space for judging and set up the space with the proper equipment needed. Prior to judging, spend some time with the judges. Acquaint judges with the system used in your department. Obtain ribbons from the Fair's administration office, and return the unused ribbons along with judging results as soon as judging is complete. Make sure your clerk is in place at the judging event to record winners. Double check exhibitor records to be certain there are no discrepancies.
- h. Superintendents should encourage exhibitors to meet visitors, and to answer questions at all times during the days livestock exhibits are open to the public.
- i. Animal superintendents should continuously view all animals for obvious illnesses and address any immediate concerns with the proper authority (Department of Agriculture or on site veterinarian).
- j. When necessary and without violating the Code of Conduct for Fair Officials, superintendents should be in the ring to support the judge as a clerk or to clarify any issues regarding the rules and regulations of the show.
- k. Superintendents shall ensure that all aisles are kept clean of manure and that manure and soiled bedding is removed from animal areas to designated areas restricted from public access. Superintendents shall periodically check all hand-washing stations in their respective areas to ensure an adequate supply of lotion, water and towels are available at all times. The person responsible for re-stocking these supplies should be notified immediately when stocks are low.
- l. Upon conclusion of judging, each superintendent is responsible for ensuring that the department results and digital media is made available immediately at the conclusion of judging for the entry department staff for processing of results and payment of premiums.
- m. Superintendent shall instruct entry department when, to whom and in what form all points information shall be forwarded as required by any sanctioned livestock show.

4. After the Fair

- a. Work with facilities department, as requested, to return items to their proper places, and otherwise assist, as requested, in the process to clean up your respective department after the Fair.
- b. Thank your judges, assistants and volunteers for their valuable time and efforts.
- c. Make notes of any changes you wish to make in your department for the following year. Involve all those who assisted in your department for ideas and suggestions. Solicit comments and suggestions from exhibitors.
- d. Inventory the remaining ribbon supply for your department.

The Purebred Dairy Cattle Association

Show Ring Code of Ethics

Adopted May 5, 2015

The showing of registered dairy cattle stimulates and sustains interest in the breeding of registered dairy cattle. It is also an important part of the promotion, merchandising and breeding program of many breeders. For these reasons, the Purebred Dairy Cattle Association (PDCA) believes that it is in the best interest of all breeders of registered dairy cattle to maintain a reputation of integrity in dairy cattle shows and to present a wholesome and progressive image of dairy cattle in the show ring.

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall, at all times, deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, or illegal or non-approved use of drugs, medication and/or prohibited substance, or residue.

The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA *Unified Score Card* (2009), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance and mobility. Specifically:

1. Changing the natural color of the animal is prohibited (effective 6/1/2015). However, external applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1". Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring.
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.

4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally:
 - a. with an irritant or counter-irritant,
 - b. using a device to artificially create or enhance the udder crease,
 - c. using other substances as detected by testing that causes changes in the udder to artificially improve the conformation.
 - d. plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (hereinafter referred to as "Exhibitor") for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor") to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

Before An Animal is Shown

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

Show management will discuss the violation with the Exhibitor:

1. If, at the Exhibitor's discretion, the animal in question is not shown, no violation will have occurred.
2. If the Exhibitor wishes to challenge that a violation occurred, he/she/they will have opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

During and After An Animal is Shown

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The Exhibitor will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one, or combination of the following:

- Forfeiture or return of awards, prizes, premiums or proceeds;
- Written letter of reprimand to the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor");
- Disqualification of the exhibition livestock from an exhibition;
- Disqualification of the Exhibitor from the show;
- Publication of offense.

Disqualification may include any or all shows and classes and may be for any number of years.
