On the day of the event, prior to the contest check-in time, present yourself at any gate and show your ShoWorks receipt to a teller who will then issue you a complimentary gate admission pass, good for that day only. Anyone who accompanies you will be required to pay admission. If you need assistance when bringing supplies and equipment onto the Fairgrounds, please request a Courtesy Shuttle when you get to the Gate.
4. In recent years in the Northeast Region, there have been numerous food borne outbreaks of Salmonella Enteritidis associated with the use of raw eggs in food products. Ice cream has been implicated in several of these outbreaks. Senior citizens are especially vulnerable to the effects of salmonellosis. Because raw eggs are an important ingredient in homemade ice cream mixes, and because the ice cream made for this contest will be served primarily to senior citizens, the Delaware Division of Public Health makes the following recommendations:
5. The safest method of making ice cream is to purchase a commercially pasteurized ice cream mix and add flavoring ingredients just prior to freezing. If your ice cream mix is made "from scratch," cooking the mix to 165 degrees F will destroy salmonella organisms. Cool the mix to 120-130 degrees F and then refrigerate at 40 degrees F or below until freezing. Should you wish to make ice cream with an uncooked mix, substitute liquid pasteurized eggs for raw eggs. Always use pasteurized milk, USDA inspected eggs (or USDA approved pasteurized eggs) and flavoring ingredients from approved commercial processing facilities. Thank you for your cooperation and good luck!
